

MSDC

MEDICAL SOCIETY OF THE
DISTRICT OF COLUMBIA

Decision Tree

Which membership is right for me?

This is Jenn

**She is a physician who lives
and/or works in the DC area**

**She wants to be as involved
as possible in MSDC**

Active member

- Can serve on Board and committees
- Votes in committees and for Board members
- Gets up to two wellness visits covered
- Receives Society emails and news
- Invited to events and webinars

This is Jill

**She is a physician who
lives or works in the
DC area**

**She wants to be "in the know",
but doesn't care about MSDC
governance**

Associate member

- Can sit in on Board and committee meetings but not vote
- Receives Society emails and news
- Invited to events and webinars but may pay more than Active members

They can be **Active members** (like Jenn) at a special reduced rate.

These are Fellows or Residents in DC area programs

This is Jones

**He can only be an
Associate member, like
Jill.**

**He is a student at a DC area
medical school**

This is Taylor

They have been in practice for many years and are ready to (mostly) retire

They want to stay engaged with MSDC, so they remain an **Active member (but at a lower rate than Jenn).**

When they are ready to fully retire and just read eNews, they can become a **Life member (no dues).**

This is Tanya

She is a nurse

This is Gloria

**She is neither a
physician or allied
health person**

**Associate
members**

**New! They can now
be Subscribers (not
a membership)**

**These people just want to read
eNews and view MSDC videos**
